SURFACE PROTECTION FILM

Main Tape manufactures surface protection films with an eco-friendly quick peel adhesive system. QuikMask™ LDPE film is designed to prevent scratches, marring or staining of exposed surfaces during manufacturing, assembly and shipping of your products. Yet our films remove easily with no adhesive residue left behind.

A range of tack levels are available for a variety of applications, including high gloss painted surfaces. Easy to apply and easy to remove, QuikMask™ quality high performance protective film protects your project from concept to completion.

Surface protection films from Main Tape. Committed to our products and committed to you to find the perfect application.
