

The KleenTape™ 2000 Series

Main Tape Company, Inc | 800-526-TAPE (8273) | www.maintape.com | info@maintape.com

Cell phone and PDA lens protection

KleenTape™ 2000 Series is designed to protect the back side of the lens prior to installation of the lens in a cell phone or PDA. 2000 Series products protect the lens from scratching as well as dust and other contaminants.

Structure

- ⊙ Water-based acrylic adhesive
- ⊙ Polyethylene film base

Benefits

- ◆ Laminates easily to the backside of the polycarbonate lens prior to the subsequent assembly process
- ◆ Easy to remove with Main Tape's custom formulated acrylic adhesive
- ◆ Transparent to allow for visual inspection
- ◆ Prevents scratching and contamination
- ◆ Produced in a Clean Manufacturing Environment (CME) for use in protecting LCD glass

Applications

- ◆ Protects polycarbonate lenses during fabrication and transportation
- ◆ Protects plastic and other smooth components during fabrication

Properties

<i>Product No.</i>	KT 2206
<i>Nominal Thickness</i>	2 mil; 50 micron
<i>Adhesive Strength*</i>	1 oz/in; 28 g / 25 mm
<i>Tensile Strength</i>	3100 psi; 21.4 MPa
<i>Elongation</i>	400%
<i>Unwind (Peak)</i>	1.422 oz/in; 1.59 kg/m

*By PSTC-1 Test method

The physical properties and characteristic listed above are values for reference and are not to be considered as specifications. Our suggestions for use are based on tests we believe to be reliable. However, the purchaser must determine the suitability of the product for their internal use. Main Tape assumes no liability for claims beyond those outlined within our Limited Warranty, which includes replacement value of Main Tape product proven defective.
